RELISUCO RENEWABLES LIMITED

HONG KONG COMPANY | FOUNDER-LED RESEARCH AND CONSULTING

Technology insight. Investment clarity.

Relisuco Renewables provides environmental and industrial research, business intelligence, educational briefings and industrial consulting. Its ruleof3 framework connects environmental pressures with technology, customer demand and operating realities.

WHAT CLIENTS CAN COMMISSION

Sourced thematic research memoranda; educational presentations for institutional teams and committees; and periodic industry intelligence. Industrial consulting covers manufacturing strategy, technology assessment, procurement, supplier qualification and commercial development.

The services described here do not include recommendations on particular securities, client-holdings reviews, model portfolios or asset management.

SELECTED EXPERIENCE INFORMING THE RESEARCH

Tantallon Tech and Sustainability Fund | Since 2018

Michele Bina's personal role as Non-Executive Director and Adviser, challenging investment strategy and providing guidance on technology, renewable energy and sustainability themes.

Enel Group and 3Sun | 2007-2023

Senior-management advisory on PV technology, markets, procurement and manufacturing strategy, including work relating to 3Sun's transition to crystalline-silicon heterojunction technology.

Terra Firma and RTR | 2017-2018

Technology outlook and strategic advice in connection with the proposed sale of RTR. The role was technology and strategic advisory, not arranging or leading the sale.

IRENA | 2020-2023

Project reviews and panel leadership supporting renewable-energy project readiness through the Climate Investment Platform.

Crystal Technologies | 2016-2024

Senior adviser and operating partner role in monocrystalline silicon-wafer technology.

FOUNDER AND MANAGING DIRECTOR

Michele Alessandro Bina began in corporate finance at S.G. Warburg in London, working on more than 60 significant transactions for major listed companies. His career since 1988 spans finance, technology, industry, sustainability and investment advice. He holds a master's degree in Corporate Environmental Governance from the University of Hong Kong and a first-class BSc in Economics from the University of London.
